

Machine GRAPHICS & VISION

Special Issue

Call for Papers

The Editorial Board of MG&V is preparing a special issue on

Image Databases

edited by Juliusz Kulikowski, to be published in 2009.

The topics include, without limitations:

- image indexing
- image compression
- image retrieval in concentrated and distributed databases
- knowledge mining from image data
- problems of image databases organization and exploitation
- taxonomy of image documents
- grouping image documents according to formal and content-related properties
- standards for recording image documents

All the submitted material will be subject to refereeing by independent experts in line with the usual rules of paper evaluation and acceptance employed by the Editorial Board.

Potential authors are warmly invited to send papers on the above topics in electronic form to the address: MGV@ipipan.waw.pl

Important dates:

- | | |
|------------------------------------|---------------|
| • Submission of papers | by 30.04.2009 |
| • Reviews sent to authors | by 31.08.2009 |
| • Final acceptance of the papers | by 31.10.2009 |
| • Publication of the special issue | by 31.12.2009 |

Information about the final format and style required for MG&V submitted papers can be found at <http://www.ipipan.waw.pl/MGV/MGV.html> or in any issue of the journal.
